Company Profile

Clerici Tessuto is one of the world's most important textile companies for the luxury sector with its fabric lines for women's and men's clothing, accessories and furnishings. With a century of history behind it, the company is today a point of reference for major luxury brands.

Since 1922, Clerici Tessuto has been managing a supply chain based on its own creative and productive resources and on the best partners in the Italian textile industry: creativity, continuous training, specialisation and passion have made the company the reference supplier of the major fashion brands, producing fabrics for clothing, furnishing and accessories.

In addition to the ability to design and produce plain and jacquard fabrics, Clerici Tessuto also specialised in textile digital printing of very high quality.

The company manufactures, finishes, transforms and sells more than 4 million meters of fabric per year, with a sales network that reaches 2,500 customers in 70 countries and an export turnover of about 56%.
